6. (OSI) and met with Spencer Beresford, counsel of the House Committee on Science and Astronautics, to discuss Congressman Anfuso's request that the Agency submit to his Subcommittee a statement containing a comparison of U. S. and Soviet space technology for the purpose of assessing the Soviet lunik shot. It was determined from Mr. Beresford that Anfuso does not intend to develop the subject of space technology generally in his Subcommittee hearings beginning on 28 May, but desires a brief statement to which he might refer. The statement would contain

conclusions pertaining to Soviet missile tests and tracking guidance.

statement would be accepted by Anfuso but if it was not, the Congressman

statement containing comparisons and added that while we could provide a statement on Soviet capabilities in this area we could not provide the comparison Anfuso requested. It was agreed that we would

provide such a statement by 27 May in the hope that it would be acceptable to Congressman Anfuso. Beresford said he thought the

would probably call the Director to discuss the matter further.

pointed out the problems involved in our providing a
